

Corporate Overview

Redefining mission-critical operations at the world's largest airlines, airports, hotels and cruise companies.

Redefining Businesses

The travel industry has undergone significant change as a result of the Covid-19 pandemic. Among other noticeable trends, the pandemic has highlighted the need to accelerate digital transformation across the industry. As travel recovers, businesses will need to carefully and proactively adapt to unpredictable travel volumes, evolving consumer expectations, and heightened competitiveness.

IBS Software's mission is to transform how travel companies operate in a digital world by delivering next-generation products to accelerate growth, drive efficiency, and create differentiated customer experiences.

We have achieved our leadership position by combining over 25 years of deep domain expertise with a comprehensive portfolio of modular SaaS solutions that facilitate and automate travel companies' most mission-critical functions. We accelerate innovation and enable smarter, data-driven decisions at many of the world's largest and most renowned airlines, airports, ground handlers, hotels, cruise lines, and energy companies. Our customers consistently recognize our customer-centric and partnership approach, along with our implementation track record, as additional value enablers that differentiate IBS Software from our competitors. #
